PREGNANCY SUPPLEMENT

PATENTED FORMULATION

For **Stronger** Mothers, **Healthier** Babies

MOST INDIAN WOMEN ARE MICRONUTRIENT DEFICIENT

1 in 2 pregnant women have intakes of micronutrients below EAR[#], because Indian diet is **carbohydrate-rich but nutrient-deficient⁵**.

Adverse health outcomes of gestational micronutrient deficiency⁶

Short-term

- Miscarriage
- Stillbirth
- Birth defects
- Small size for gestational age
- Preterm birth

Long-term

- Death
- Altered growth, body composition
- Compromised cardiometabolic, pulmonary & immune function
- Poor neurodevelopment & cognition

EAR- Estimated Average Requirement

MULTI-MICRONUTRIENTS ARE BENEFICIAL FOR PREGNANCY OUTCOME

1. MMN supplementation reduces the risk of
 Low birth weight by **15%** | Preterm birth by **55%** | SGA by **7%**
 Pre-eclampsia by **45%^[1-4]**

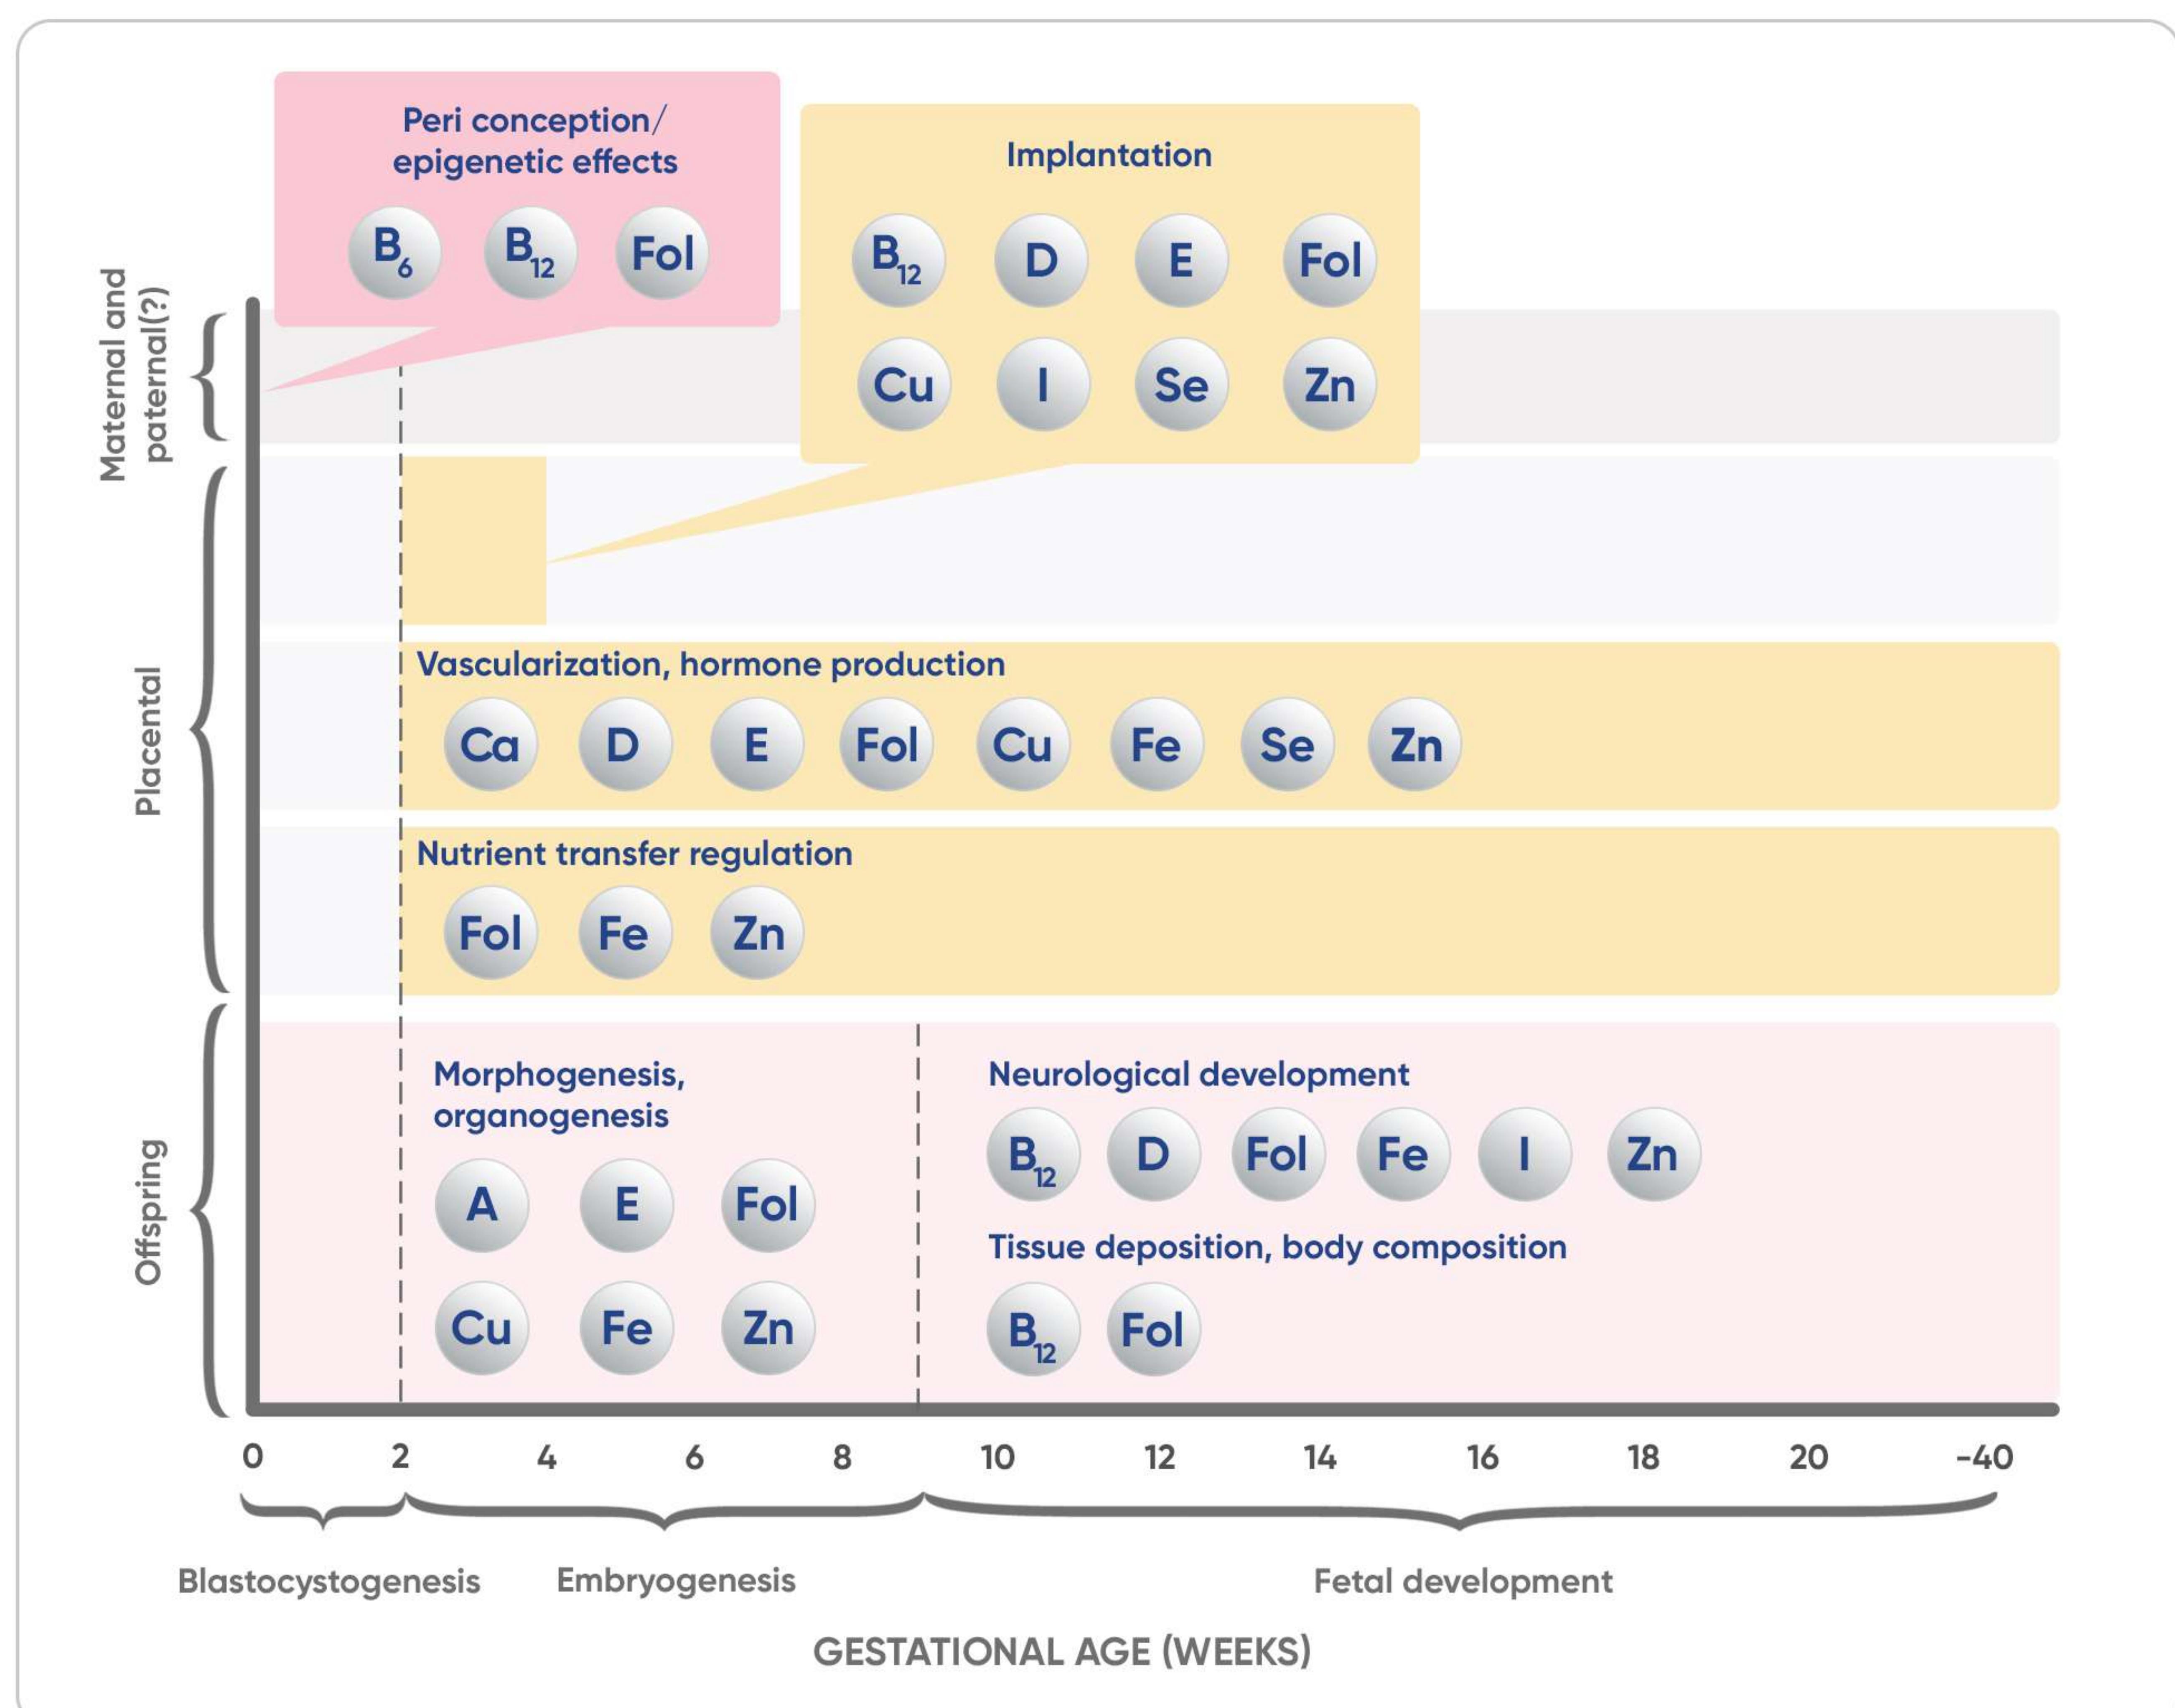

Figure: Multi-Micronutrients required in pregnancy

2. MMN supplementation improves childhood survival, growth, body composition, blood pressure, respiratory & cognitive outcomes.⁵
3. MMN supplementation is effective in reducing maternal anaemia as compared to iron & folate supplementation alone.⁶

PlusPlus Lifesciences introduces

INDIA'S MOST ADVANCED PRENATAL TABLETS
For a healthy pregnancy

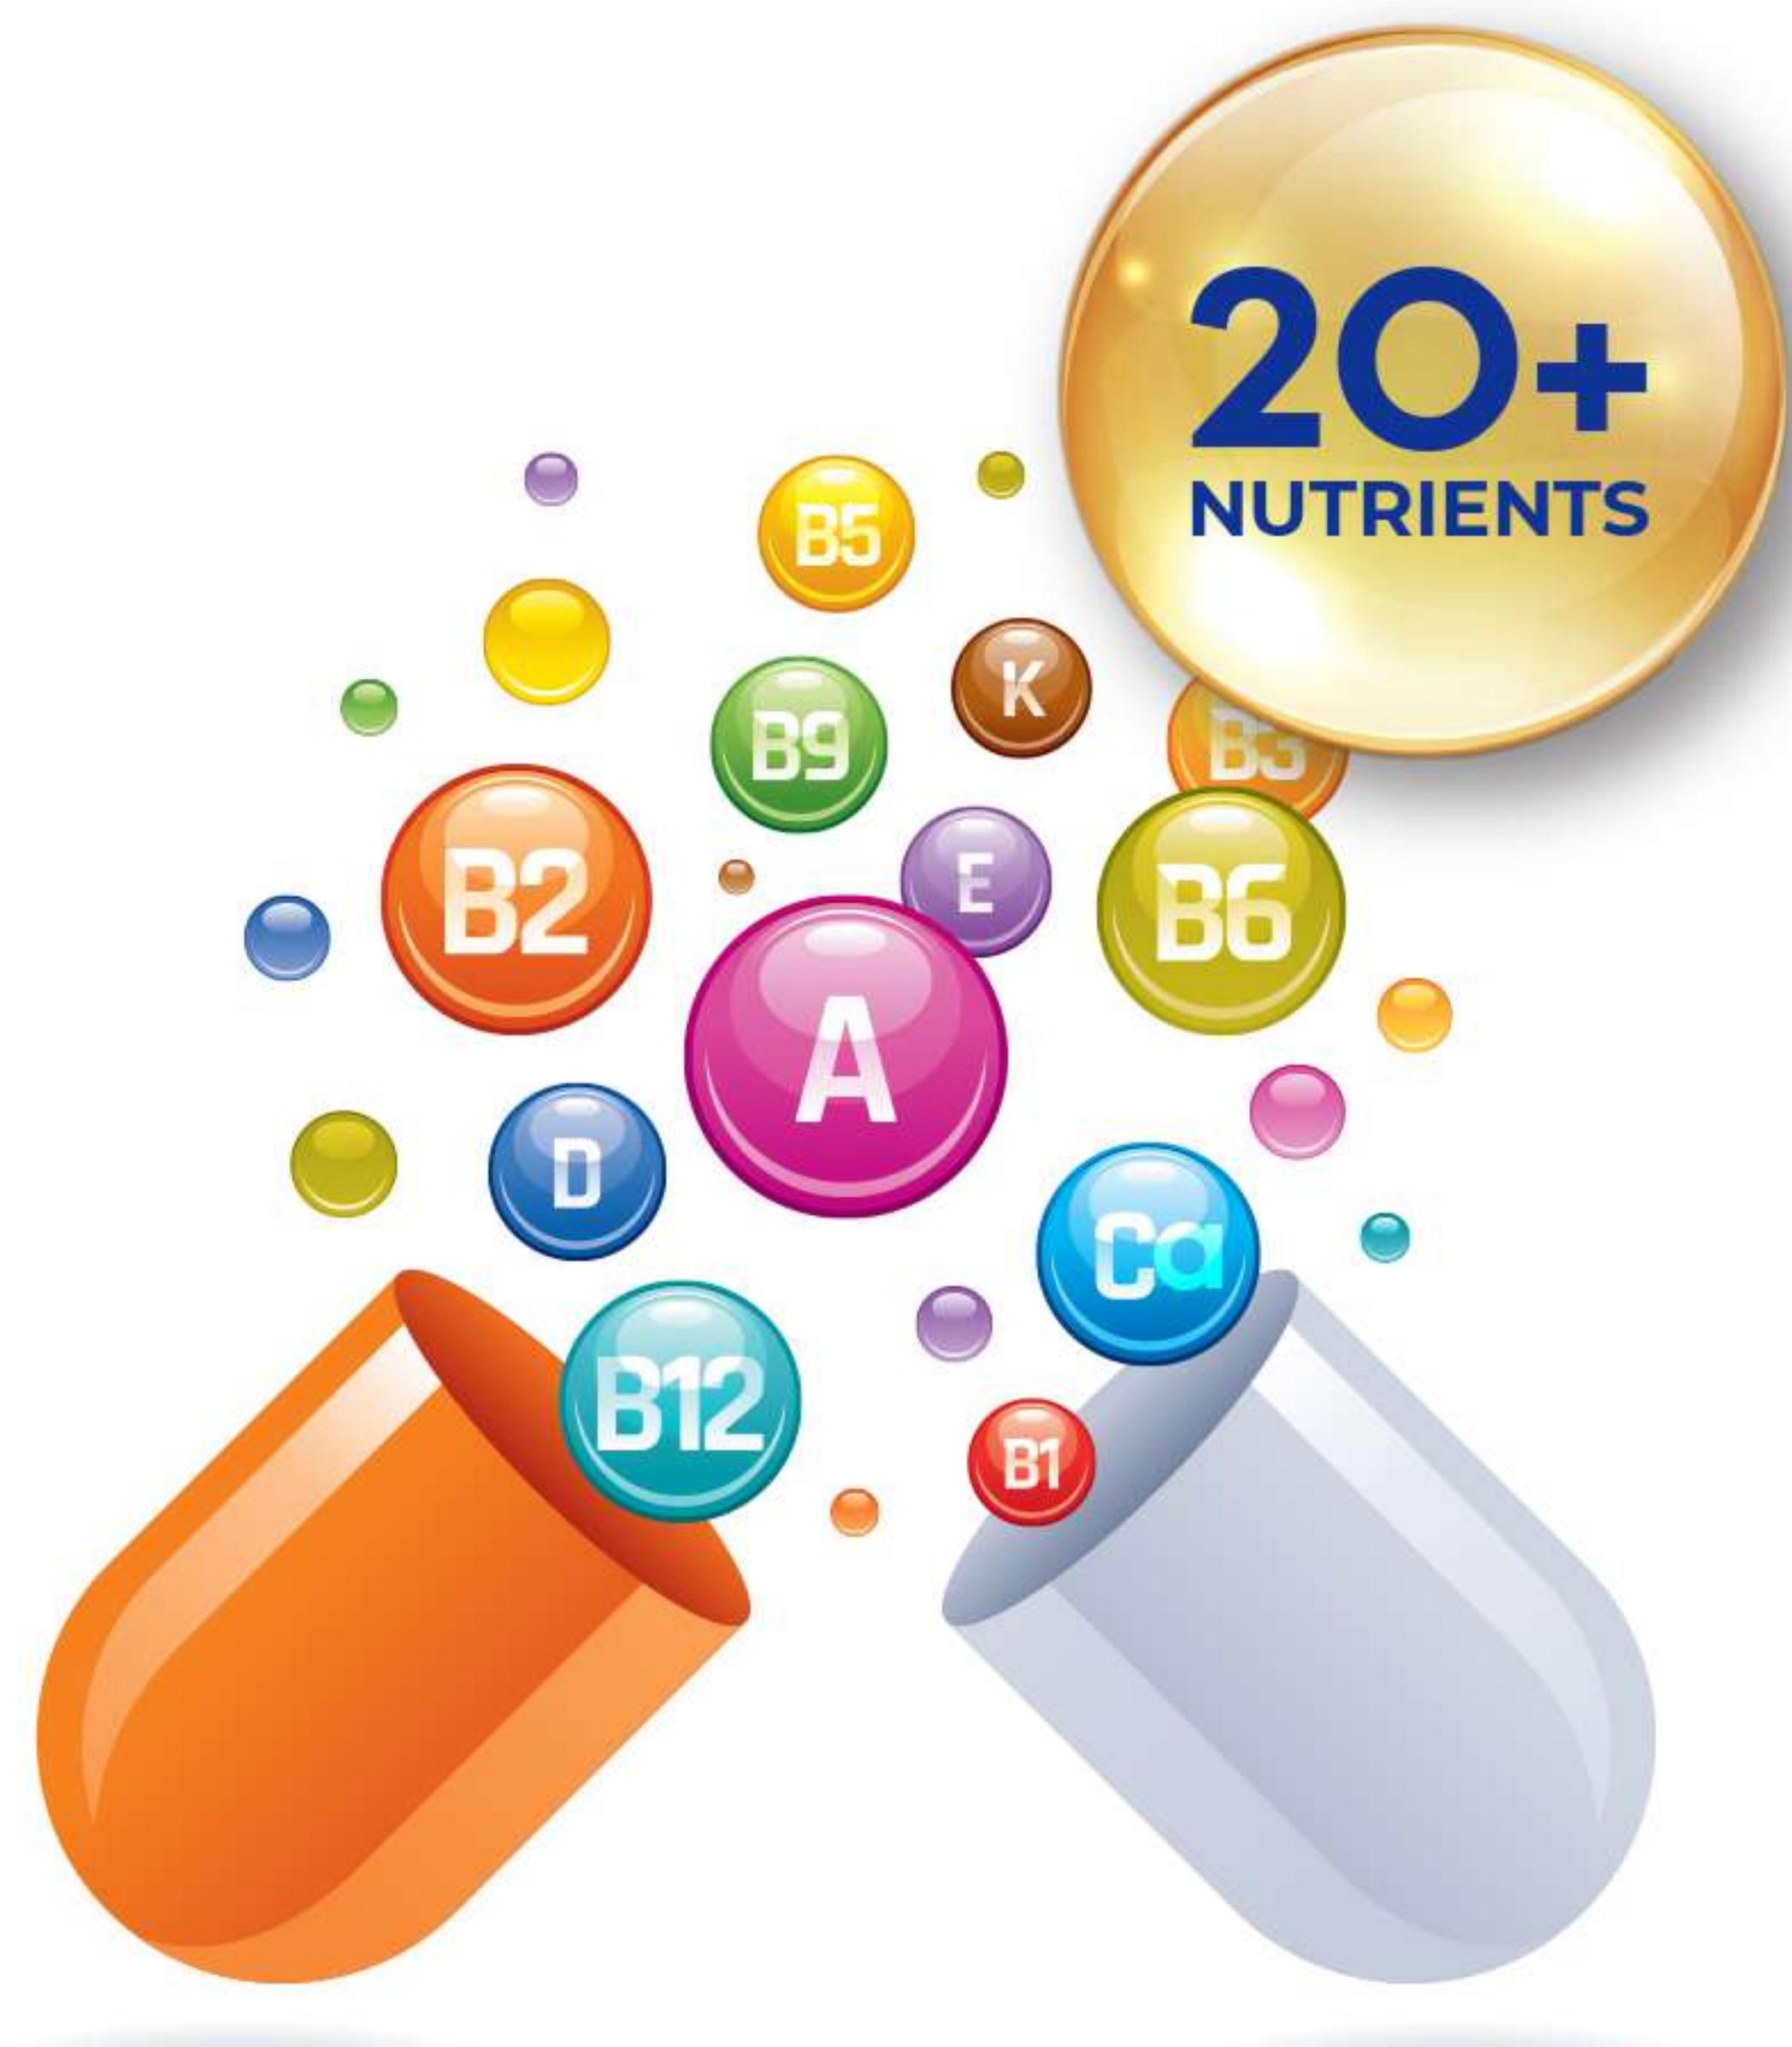

PLUS PLUS

trimacare™

ADVANCE

**Based on Multi-micronutrients (MMN),
including Iron, Folate, Calcium (IFC),
suggested by ICMR & WHO.**

Trusted in developed countries for decades
& now available for Indian pregnant women

**One-Stop Solution
Good for mother, good for baby.**

Patients prefer less pills during pregnancy.

40% Pregnant women reported non-adherence
to therapy due to multiple pills.¹

TRIMACARE™ IS A 3-STAGE COURSE:

Unique formulation for every trimester of pregnancy

(Trimacare can be introduced at any stage of pregnancy)

TRIMACARE™ 1 (01-12 weeks)

20+ Nutrients, including:

- ▶ L Methylfolate (5 mg): 7 times more bioavailable than Folic acid
- ▶ Omega 3 (EPA:DHA = 2:3) (100 mg): Vegetarian source from deep sea Algae stimulates tube formation and prevents placentation disorders
- ▶ Pyridoxine (10 mg) & Anti-emetic blend for morning sickness
- ▶ Vitamin D, Vitamin B12, Iodine, Zinc & more

TRIMACARE™ 2 (13-26 weeks)

20+ Nutrients, including:

- ▶ Iron as Ferrous ascorbate (60 mg): Time-Release for minimizing G.I. side effects
- ▶ Right combination of calcium & Vitamin D; 1250 mg Calcium (Elemental 500 mg) & 400 IU Vitamin D
- ▶ Omega 3 (EPA:DHA = 2:3) (200 mg): Vegetarian source from deep sea Algae Promotes foetal CNS & brain development. Prevents preterm birth.
- ▶ Magnesium & Vitamin E for leg cramps
- ▶ Vitamin B12, Iodine, Zinc & more

TRIMACARE™ 3 (27-40 weeks)

20+ Nutrients, including:

- ▶ Magnesium (310 mg): Prevents cramps & preeclampsia
- ▶ Bowel Regulator for constipation
- ▶ Iron as Ferrous ascorbate (60 mg): Time-Release for minimizing G.I. side effects
- ▶ Omega 3 (EPA:DHA = 2:3) (200 mg): Vegetarian source from deep sea Algae
- ▶ Elemental Calcium (500 mg)
- ▶ Vitamin D, Vitamin B12, Iodine, Zinc & more

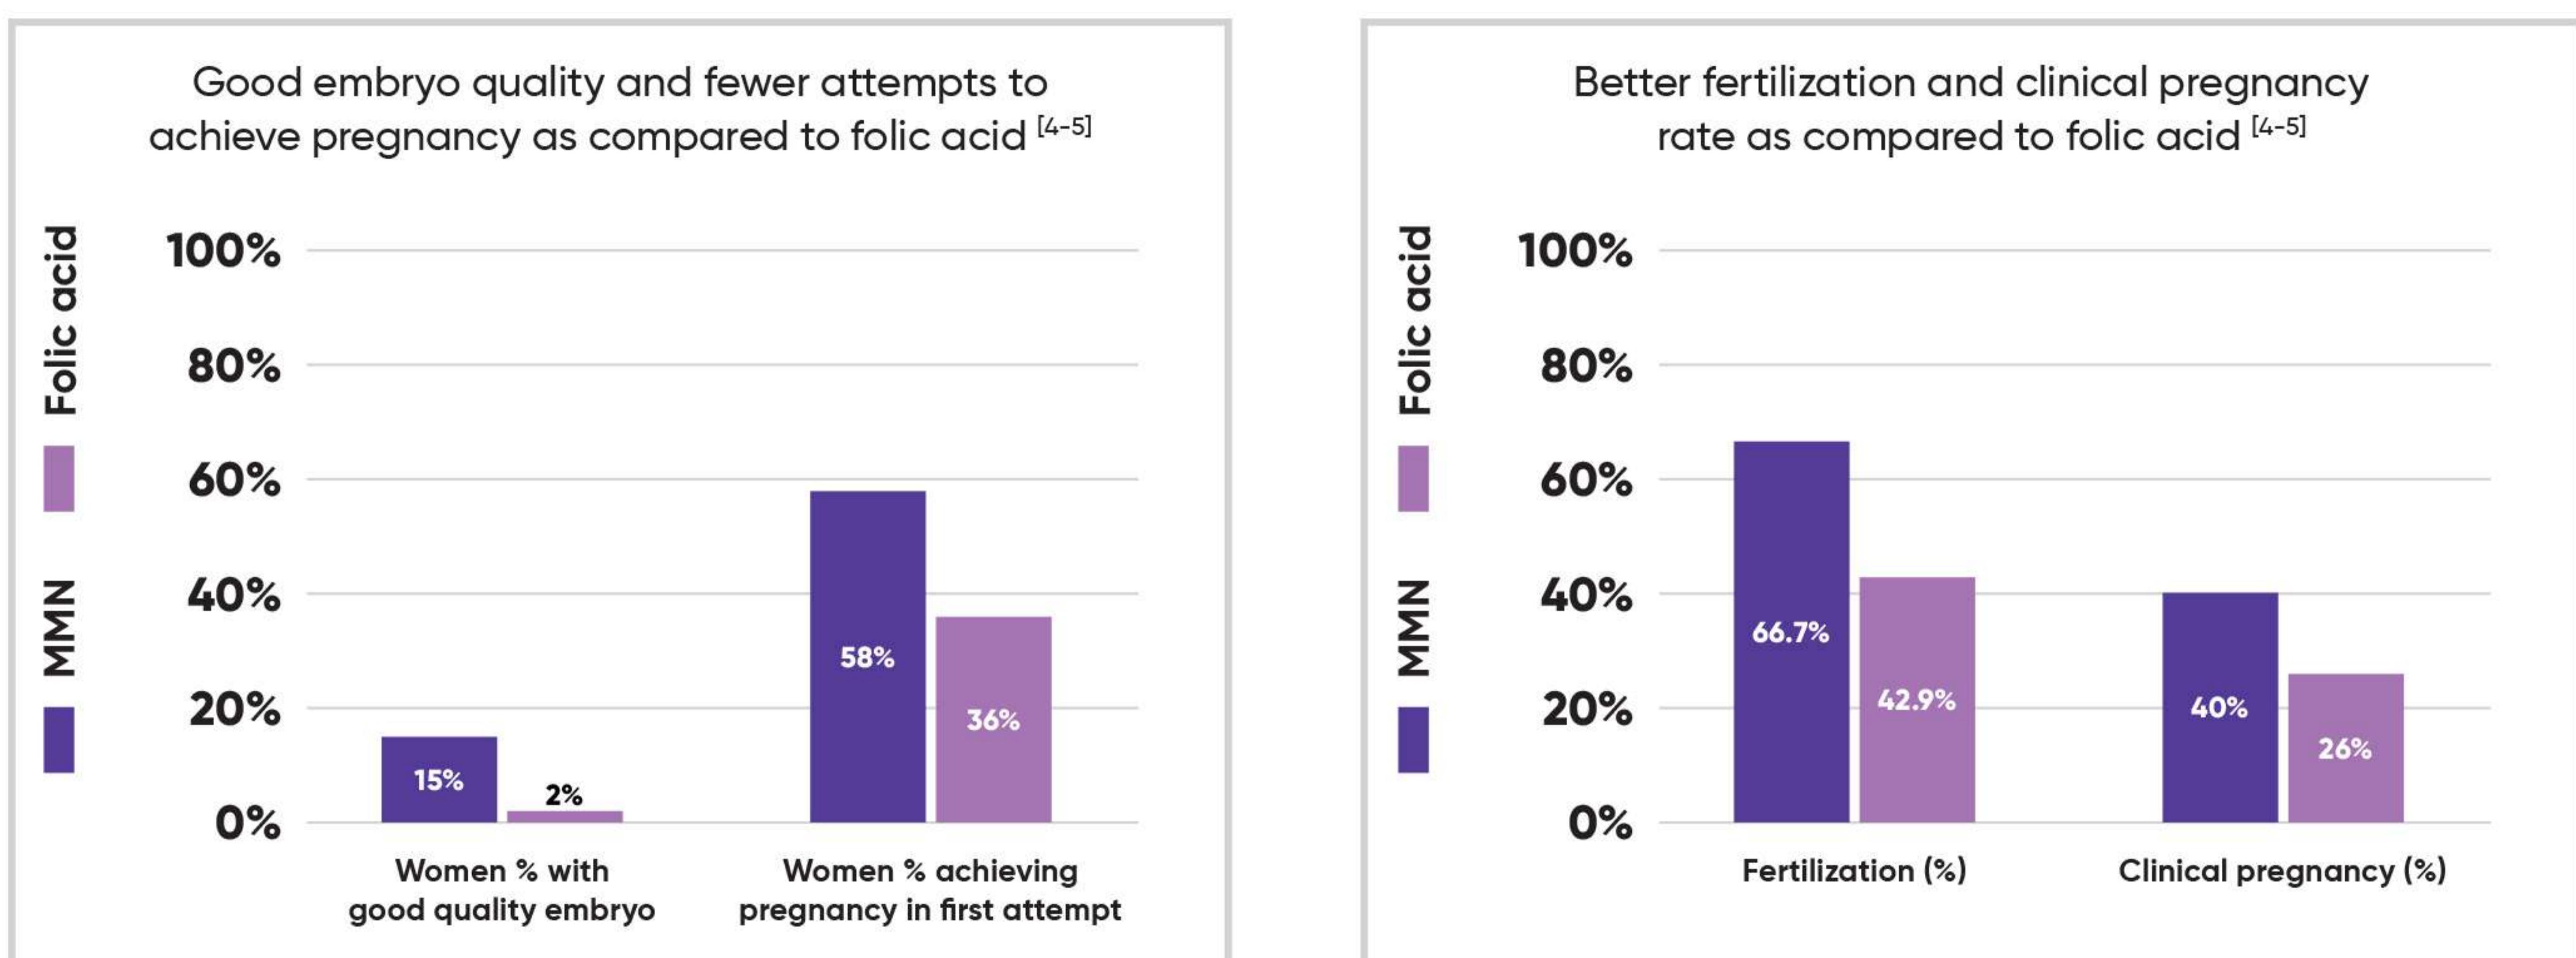

Prenatal tablets
for healthy pregnancy

Positive impact on clinical outcomes of IVF therapy

**Favourable effect of MMN supplementation
on IVF therapy [1-3]**

- ✓ Normalizes trace element levels
- ✓ Lowers the risk of ovulatory infertility
- ✓ Positive impact on the quality of the microfollicular environment
- ✓ Positive impact on oocyte and embryo quality
- ✓ Positive impact on implantation and live birth
- ✓ Reduces the incidence of low birth weight, small-for-gestational age, and preterm birth

- ✓ **Vitamin D & Omega 3:** Improve clinical pregnancy rate and live birth [6,7]
- ✓ **Antioxidants:** Vitamin B2, B6, A, C, E, Copper, Manganese, Zinc and Selenium improve IVF outcome [1,2]
- ✓ **Vitamin E:** Reduces the time to achieve pregnancy [2]
- ✓ **Vitamin B2, B12 and Folate:** Initiate early embryo development and provide positive IVF outcome [8]

Prenatal tablets
for healthy pregnancy

- ✓ **20+ micronutrients:** Play important role in various biochemical processes
- ✓ **L-Methylfolate:** Active form of folic acid; 7 times more bioavailable than Folic acid
- ✓ **Time-release Iron (Ferrous ascorbate):** Reduces GI side effects. Time release pattern is in 4 packets of 40%+20%+20%+20% in total of 8 hours
- ✓ **Vegetarian source of Omega-3:** Convenient for vegans & vegetarians

Functional Category	Micronutrients of Trimacare™ 2
Fertility modulator	Vit D, Vit E, Vit C, Vit B6, Folate, Zn, Fe, ω-3 & Se
Antioxidants	Vit A, Vit B2, Vit E, Vit C, Se, Fe, Cu, Zn & Mn
Haematopoiesis	Vit A, Vit B6, Vit B12, Vit K, Fe, Cu, Folate, Ca & Zn
Neuropeptide synthesis	Vit C, Vit B5, Vit B6 & Mg
DNA & RNA synthesis	Vit B1, Vit B3, Vit B12, Folate, Mg, Fe & Zn
Thyroid hormone activity	Se, Iodine & Vit C
Amino acid synthesis	Vit B6, Folate, Mg, Zn & Mo
Ocular Integrity	Vit A, Vit C, Vit E, ω-3, Zn & Se
Skin integrity	Vit A, Vit C, Vit D, Vit E, Zn, Cu & Se
Bones and Teeth Health	Vit D, Vit A, Ca, Vit K, Mg, Fe, Cu & Zn
Growth and development	Vit A, Vit E, Vit K, Fe, Cu, Mg, Mn, Zn, B & Mo
Metabolic process	B vitamins, Vit C, Vit D, Iodine, Mg, Mn & Cr
Mood Modulator	Vit D, Vit B1, Vit B2, Vit B5, Vit B6 & Vit B

Prenatal tablets
for healthy pregnancy

KEY MICRONUTRIENTS AND THEIR BENEFITS

L-Methylfolate [1-2]

- **MTHFR gene polymorphism:** 40–60% of population unable to convert folic acid to L-methylfolate
- Enhances women's fertility
- Helps in RBC & DNA synthesis

Vitamin A [3-4]

- Assist conception, implantation, placentation, and regular foetal growth
- Daily low-dose supplementation is safe for foetus as well as pregnant women
- Maintains Ocular Integrity

Vitamin D [5-6]

- Supports optimal absorption of Calcium
- Reduces the risk of GDM
- Reduces the risk of pre-eclampsia and preterm birth
- Lowers the risk of intrauterine infection
- Important for foetal morphological and functional development

Zinc [7]

- Regulates T-helper cytokines
- Helps in neurogenesis
- Plays important role in cognitive development
- Important for bones and skeleton muscles
- Reduces the risk of preeclampsia and preterm birth
- Lowers the risk of intrauterine infection

Iodine [8]

- Contributes to production & function of thyroid hormones in pregnant women
- Regulates calcium homeostasis
- Plays important role in brain and nervous system health

Vitamin B12 [9]

- Contributes neuronal development particularly in myelinogenesis
- Plays important role in RBC & DNA synthesis
- Prevents spina bifida and other spinal and central nervous system birth defects

Iron [10]

- Ferrous ascorbate with time release formulation
- Formulated in a base to provide prolonged activity over a 6-to-8-hour period
- Provides excellent absorption & prevents gastro-intestinal side effects
- Improves Hb production and oxygen supply to foetus

Omega-3 [11-13]

- Ferrous ascorbate with time release formulation
- Stimulates tube formation
- Prevents placental disorders
- Provides excellent absorption & prevents gastro-intestinal side effects
- Supports CNS growth & brain development
- Prevents preterm birth

Calcium [14]

- Calcium Carbonate with 400 IU of Vit D for proper absorption
- Does not leave metallic or chalky taste
- Maintains parathyroid hormone (PTH) levels
- Reduces the risk of pre-eclampsia and preterm birth
- Essential for bone development

Magnesium [15-16]

- Plays important role in over 600 enzymatic reactions
- Able to influence foetal programming and disease presentation in childhood or adulthood
- Reduces incidence of leg cramps
- Reduces risk of pre-eclampsia & IUGR

Vitamin K [17-18]

- Plays important role in haematopoiesis, bone formation & growth
- Supports cardiovascular function
- Facilitates calcium transportation
- Prevents blood vessel calcification
- Facilitates wound recovery after delivery

1 Tablet per day

Unique formulation for preconception to first trimester of pregnancy

NUTRIENTS	ICMR guidelines	TRIMACARE 1	RDA	REMARKS
Vitamin B9 (L-methyle folate)	570 mcg	5 mg	@	To meet condition-specific requirement
Vitamin A (Retinol & β carotene)	900 mcg Retinol, 6400 mcg Beta carotene	800 mcg Retinol, 800 mcg β carotene	22%	Low levels of Vitamin A is safe for fetus as well as mother
Zinc	14.5 mg	12 mg	83%	
Vitamin D (Ergocalciferol)	600 IU	400 IU	67%	
Vitamin E (α tocopherol)	10 mg	10 mg	100%	
Iodine	220 mcg	200 mcg	91%	
Magnesium	440 mg	206 mg	47%	
Vitamin C (Ascorbic acid)	80 mg	60 mg	75%	
Vitamin B1 (Thiamin)	2.0 mg	1.6 mg	80%	
Vitamin B2 (Riboflavin)	2.7 mg	2 mg	74%	
Vitamin B3 (Niacin)	18 mg	18 mg	100%	
Vitamin B5 (Pantothenic acid)	5 mg	5 mg	100%	
Vitamin B6 (Pyridoxine)	2.3 mg	10 mg	434%	Recommended dose for morning sickness/NVP
Vitamin B7 (Biotin)	40 mcg	30 mcg	75%	
Vitamin B12 (Methylecobalamin)	2.45 mcg	3.6 mcg	147%	
Vitamin K2 (Menaquinone)	55 mcg	55 mcg	100%	
Copper	1.7 mg	1.7 mg	100%	
Selenium	40 mcg	40 mcg	100%	
Manganese	4 mg	4 mg	100%	
Chromium	50 mcg	50 mcg	100%	
Molybdenum	45 mcg	45 mcg	100%	
Boron		150 mcg	#	
Omega 3 EPA:DHA [2:3]		100 mg	#	
Anti-emetic Anti-nausea Prop. Blend*		200 mg	#	For morning sickness/NVP
Iron	35 mg	x	x	R _x ed in 2 nd trimester
Calcium	1200 mg	x	x	R _x ed in 2 nd trimester
